

# LARGE VESSELS MOORINGS

Falmouth Harbour offers, for short and medium-term hire, five moorings for vessels up to 64m LOA, conveniently positioned within the shelter of the inner harbour and within easy reach of the commercial port and town. See BA Chart 18.

The moorings are ideal for small to medium-sized commercial craft, large yachts, superyachts, sail training ships and charter vessels. Depending on a vessel's characteristics, they can be occupied in both ahead and astern configuration with the option for vessels to lie alongside each other, or as swinging moorings.
